A provision is recognised for restoration cost associated with its subsidiary, Tasek Concrete Sdn Bhd's obligations to restore the lands at the end of the tenancy periods. It is expected that most of these costs will be incurred in the next two financial years and all will have been incurred within three years from the reporting date. Assumptions used to calculate the expected costs to dismantle and remove the batching plants from the sites and the costs of restoring the lands to their original state were based on management's best estimates.

Other environmental cost is recognised on the basis of legal or constructive obligation and the expected cost is based on management's best estimates.

21. Events after the reporting period

On 16 March 2020, the Prime Minister of Malaysia announced the Movement Control Order ("MCO") to curb the spread of COVID-19. Businesses in the country, except for the essential industries, were ordered to be closed from 18 March 2020 until 31 March 2020. The MCO was subsequently extended to 14 April 2020. An announcement on 10 April 2020 further extended the MCO to 28 April 2020 albeit with the easing of restrictions on certain industries (including sub-industries and supporting businesses) to operate during the MCO period. The latest announcement extends the MCO to 12 May 2020.

On 1 May 2020, the Prime Minister announced the relaxation of the MCO to allow almost all economic sectors to open, albeit with conditions, with effect from 4 May 2020. While there were reports that some states are not ready for the relaxation of the MCO, Tasek Concrete Sdn Bhd has since begun preparations to resume its operations.

22. Review of performance

(a) Current Quarter vs. Corresponding Quarter of Previous Year

For the current quarter, the Group registered a net revenue of RM131.5 million and profit after tax of RM4.2 million compared with the corresponding quarter of the previous year's net revenue of RM137.3 million and loss after tax of RM10.4 million. The profit for the current quarter was mainly contributed by the cement segment and arose from a reduction in sales rebates and lower production cost. However, sales volumes for both cement and ready-mixed concrete segments compared with the corresponding quarter of the previous year, were affected by the nationwide MCO imposed by the Malaysian Government which started on 18 March 2020. This was compounded by lower share of profit from the associate company.

The cement segment achieved an operating profit of RM3.1 million compared with an operating loss of RM13.0 million for the corresponding quarter of previous year mainly due to lower sales rebates in the domestic market and lower production costs. However, sales volume fell due to the cessation of business during the MCO period.

The ready-mixed concrete segment achieved lower net revenue of RM45.9 million and operating profit of RM752,000 for the current quarter compared with previous year's corresponding quarter of RM55.7 million and RM1.5 million respectively on account of lower sales volume arising from the MCO imposed by the Malaysian Government and higher raw material costs.

The Group's interest income of RM529,000 for the current quarter was higher compared with RM496,000 of the corresponding quarter of previous year mainly due to higher short term deposits.

The lower share of profit from the associated company of RM214,000 for the current quarter compared with RM316,000 of the corresponding quarter of previous year was mainly due to lower sales volume arising from the nationwide MCO imposed by the Malaysian Government and higher cost of sales.

23. Material change in the profit/(loss) before tax for the current financial quarter compared with the immediate preceding quarter

	Current quarter 31 March 2020	Immediate preceding quarter 31 December 2019
	RM'000	RM'000
Revenue	131,492	176,487
Net profit/(loss) before tax	4,524	(4,469)
Share of results of associates	214	(678)
Consolidated profit/(loss) before tax	4,738	(5,147)

The Group registered a net revenue of RM131.5 million and profit before tax of RM4.7 million compared with the immediate preceding quarter's net revenue of RM176.5 million and loss before tax of RM5.1 million. The current quarter profit was mainly contributed by the cement segment which experienced improvement in the local cement net pricing, a result of lower sales rebates, and lower production costs. However, sales volumes for both segments, when compared against the immediate preceding quarter, were adversely affected by the shorter business cycle due to Chinese New Year festive holidays and the nationwide MCO imposed by the Malaysian Government since 18 March 2020.

24. Commentary on prospects

The outlook for the second quarter is expected to be even more challenging. Like all businesses, the Group is also affected by the MCO which caused the cessation of the operations of the Group's cement plant and ready-mix concrete operations since 18 March 2020. Although approval has been granted by MITI for the cement plant to resume operations, the MCO will have an adverse impact on the financial performance of the Group.

Type of Derivatives	Note	Contract value	Fair value Assets	Liabilities
		RM'000	RM'000	RM'000
Foreign Exchange Contracts				
- Less than 1 year	33	3,520	108	

Forward foreign currency exchange contracts are entered into with licensed banks to hedge the Group's exposure to foreign exchange risk in respect of imported purchases by establishing the rate at which foreign currency assets will be settled.

These contracts are executed with credit-worthy/reputable financial institutions in Malaysia and as such, credit risk and liquidity risk in respect of non-performance by counterparties to these contracts is minimal.

The fair value of the forward foreign currency exchange contracts are subject to market risk. The fair value of the forward contracts may decline if the exchange rate of the underlying currency decreases.

There are no cash requirements for these derivatives.

Forward foreign currency exchange contracts are recognised on the contract dates and are measured at fair value with changes in fair value recognised in profit or loss.
